*I fell in love with these characters: saintly and monstrous, wrecked but not lost —castaways all. Kate Story is one of those rare writers who can plumb the darkness and retrieve from the depths a jewel, a truth, luminous and redemptive. A magical and moving novel. Prepare to be transported.*

**Jessica Grant, author of *Come, Thou Tortoise***

**Kate Story's first novel *Blasted* was nominated for the ReLit Award and received honourable mention for the Sunburst Award for Canadian Literature of the Fantastic.**

*Kate Story's debut novel is an unlikely marriage of Newfoundland's oldest traditional lore with the contemporary urban world of St. John's and Toronto. The result is raw and strange and hilarious and affecting. Ruby Jones— itinerant waitress, sometime nude model, budding alcoholic— admits early on that tenderness and rage are her “heart language.” *Blasted* offers both in spades.* - **Michael Crummey**

*...a strange, shining, souring thing brimming with beauty and terror, pain and love, insight and redemption.* - **Ursula Pflug**, Internet Review of Science Fiction

*A stunning first novel.* - **Susan Dymont**, Peterborough Examiner

*I am as delighted as other readers will be with this young Newfoundland writer. With talent and patience Kate Story has unearthed another of the many mysteries hidden within the Southside Hills.* - **Bernice Morgan**

*The narrative tide lifts its themes and characters and carries them forward in an irresistible flow. Throughout, Story writes with energy, vivacity, a lack of self-pity, a clear eye for detail, and a great sense of comic timing. This is a wonderful novel.* - **The Newfoundland Quarterly**
